Education

Fergusson College

2022 – 2024

Masters in Computer Applications

- CGPA: 7.25

Experience

Software Developer

(Intern) Pune

Clarovate

Jan 2025 – Present

- Working as a Software Engineering Intern, focusing on React, TypeScript, and Nest.js.
- Developing and maintaining web applications, utilizing MongoDB for database management.
- Using Docker for containerization and Git for version control in an agile environment.
- Collaborating with cross-functional teams to implement features and enhance application performance

Wordpress Web Developer

(Intern) Pune

DeltaQ

Jan 2024 – Aug 2024

- Developed and maintained dynamic websites using WordPress CMS by customizing themes, layouts, and plugins, ensuring a responsive and engaging user experience.
- Optimized site performance through strategic configuration and best practices, reducing page load times by approximately 35% and significantly enhancing overall site efficiency.

Projects

File packer Unpacker (Java)

[Github Link](#) 

- Developed a Java application to pack multiple file types into a single archive by consolidating file metadata and data, optimizing storage and file transfer efficiency.
- Engineered a robust unpacking mechanism to accurately extract and recreate original files based on meta-data, ensuring reliable data restoration and integrity.

Virtual File System (C++)

[github Link](#) 

- Developed a C++ based virtual file system that replicates Linux file system functionalities through a custom shell, including essential commands and system call implementations.
- Designed and implemented critical file system data structures, such as the Inode Table, to ensure efficient file management and robust system performance.

Periodic Process Logger with Auto Scheduled Log Report Facility (Python)

[github Link](#) 

- Developed a Python-based application that automatically captures and logs active system processes with accurate timestamps.
- Integrated an automated email system to dispatch detailed log reports to designated recipients, while utilizing Git for robust version control and agile development.

Certifications

- Preparing Data for Analysis with Microsoft Excel
- Harnessing the Power of Data with Power BI
